*Far more effective than any homemade solution, yet safe for delicate tissues—special preparation for the douche!*

Today, discover an intimate, "clean feeling" you've never experienced before. Discover Zonite—the modern woman's way to internal cleanliness.

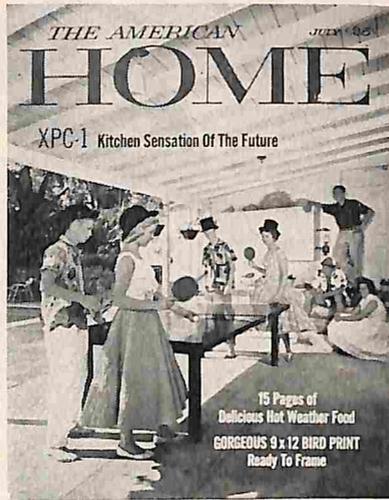

Zonite is entirely different from old-fashioned, homemade douching solutions . . . far more effective in antiseptic, germicidal and deodorizing action. In fact, Zonite is the one effective liquid specially made for feminine hygiene.

Yet, Zonite is so safe. Safer by far to delicate tissues than other liquid antiseptics for the douche!

Make Zonite as important a part of your grooming as your deodorant, bath soap and other personal needs. It's the modern woman's way to internal cleanliness!

Our cover focuses on Los Angeles, Cal., and the Jaques family who, in creating a larger home, included a pool and a room where the children could entertain. To see how they achieved this on a family co-op plan, turn to page 34. This is the second story in a series on families who are making "home" a social center for their teenagers.
