The STITH MASTER MOUNT

The first revolutionary development in mounts since the Stith Install-it-Yourself!

★

A unique V-block design employing two sets of opposing cones. The scope, resting in the four cones, is held secure on zero by a simple spring attachment.

Now, in less than ten seconds, you can switch your favorite scope from one rifle to another... or change scopes on the same rifle! This is made possible with the Stith Master Mount. Different scopes may be quickly interchanged. No spare parts or tools necessary. Just switch and shoot.

WHAT IT WILL DO:

Different scopes with 3/4", 7/8" and 1" tubes may be used with quick interchangeability; no re-zeroing necessary... Quick changing of scopes may be done with one hand. No spare parts or tools required... Second set of bases on another rifle permits use of same scope on both, maintaining zero... Opposing cones in front and rear bases give elevation and windage adjustments... Built-in pop-up peep sight is instantly available when scope is removed. Adjustable for windage and elevation.

MASTER MOUNT \$20 •

Extra Bases \$15 • Extra Bands \$5 •

See the Master Mount at your dealer's now or write direct for details.

STITH CATALOG Now Available

Showing our complete line. (Please send 10c in coin to cover handling and postage.)
