## THE COVER

Less famed than Henry Deringer's single-shot percussion "stubby" but potentially twice as deadly, these compact flintlock over-under pocket pistols by Egg of London featured a mechanism now common in modern shotguns—a single-trigger action for two barrels. These seven are owned by W. Keith Neal, of Wiltshire, England. Another, 7½" long, was auctioned off in London recently for over \$1,500. Photograph by W. Keith Neal.

## Housewife's her title. Colt's her sport.

In Mrs. Julie Powell, of Windsor, Connecticut, we found a budding sharpshooter. She was obviously enthusiastic about her new-found sport, and we asked her why she was shooting a Colt Woodsman Target Automatic.

"Actually, my husband decided on a Colt. He thought it would be good for me, first of all, because it's a .22 caliber, and secondly, he was very pleased with the workmanship. And although I don't yet know that much

about guns, this one really is sharp. I think it's a perfect gun for a gal, because it's nice and light and really easy to handle. It's fun to shoot."

The Colt Woodsman Target can be your kind of Automatic. Take a look at it and the complete line of Colt handguns at your Colt Dealer. You can't do better than to buy a Colt.
