

AIMING FOR THE 21st CENTURY...

At GLOCK, we've looked beyond the status quo to respond now to the growing security needs of the coming century. Not by pursuing the old technology that forged the steel revolver, but by mastering a new technology. One that will create a new generation of sidearms.

We call it "polymer technology"—and already it has spawned the remarkable GLOCK 17 and GLOCK 19, 9mm semi-automatic pistols.

With fewer parts and less weight, GLOCK pistols truly represent the handguns of the future. Accurate and reliable, and using advanced ammunition, they have been adopted by NATO and law enforcement agencies around the world.

This is indeed the beginning of a new era. And a tradition that is destined to last well into the 21st century. And we at GLOCK are its vanguard.

THE COVER: More than 1,100 competitors registered to fire in the National Pistol Championships this year at Camp Perry, Ohio, and when the smoke had cleared, Darius Young had claimed his second national three-gun crown. Young, a triple-Distinguished shooter, posted a 2651-137X to regain the title he first won in 1979. Photo by J.B. Roberts, Jr.

CAUTION: All technical data in this publication, especially for handloading, reflects the limited experience of individuals using specific tools, products, equipment and components under specific conditions and circumstances not necessarily reported in the article, and over which the National Rifle Association of America (NRA) has no control. The data have not otherwise been tested or verified by the NRA. The NRA, its agents, officers, and employees accept no responsibility for the results obtained by persons using such data and disclaim all liability for any consequential injuries or damages.
