**COVER:** It's been a long time since engines like these have rolled out of GM's engineering development departments, verifying American technical expertise. The dyno sheets are impressive, but can they win at Indy? Only time will tell. Ed Sperko at GM Photographic provided the dramatic lighting and execution of our main cover shot. The story on all of GM's stock-blocks begins on page 25. Mike Slade captured Buck Baker's '50 Olds on the start-finish line at Darlington. The Classic story begins on page 86.
