LIFE'S PICTURES

Nina Leen, who photographed the house-fixing party (pp. 118-121), has two deep and lasting interests: photography and getting sun-tanned. Photography is the earlier of her pursuits and she followed it in Russia, where she was born, in Germany and in the U. S. Her sun worshipping, while more recent, receives just as much attention. She is now on what she calls "the perfect assignment": a picture story for LIFE in California, where, she has heard, the sun shines all the time.

The following list, page by page, shows the source from which each picture in this issue was gathered. Where a single page is indebted to several sources, credit is recorded picture by picture (left to right, top to bottom) and line by line (lines separated by dashes) unless otherwise specified.
