### LIFE'S PICTURES

F. W. Goro, who made the pictures of the atomic bomb crater which appear on pages 27 to 31, is LIFE's expert in science photography. At the crater site in New Mexico, Goro had 45 minutes to make all except one of his pictures. This he took three days later by exposing a photographic negative to pieces of fused sand from the crater. After the pieces had been left on the negative all night, the negative turned black in spots, proving that the crater is still radioactive (see page 30).

The following list, page by page, shows the source from which each picture in this issue was gathered. Where a single page is indebted to several sources, credit is recorded picture by picture (left to right, top to bottom) and line by line (lines separated by dashes) unless otherwise specified.

## HANDSOMELY GROOMED HAIR 'FAVORED TO WIN' WITH GIRLS!

### Scratched:

This man with carelessly groomed, unruly hair didn't even get in the race. Why doesn't someone tip him off how Kreml keeps hair neatly groomed—so trim and spruce-looking all day long?

### Plug Ugly:

And doesn't he look it with his hair plastered down so silly with grease! No wonder girls 'turn on the ice' when he asks for a date! Kreml grooms hair so handsomely yet never leaves it looking or feeling oily or greasy.

### Also Ran:

His shoulders are covered with ugly dandruff flakes. What girl would even place a bet on him! Kreml is famous to promptly relieve itching of dry scalp and remove dandruff flakes.

### 'Favorite' Wins:

And notice how the prettiest girls ask to meet 'the man with the handsome looking hair.' Kreml keeps hair neat as a pin—so lustrous—so masculine looking—yet never leaves it pasted down or feeling greasy or sticky.

● Kreml Hair Tonic is famous to keep hair neatly groomed all day long—it leaves it so lustrous, looking as if it had some 'body' to it. Kreml never pastes your hair down or leaves it looking greasy or oily. Ask for Kreml at your barber shop. Buy a bottle at your drug counter.
