ONE or two promotions . . . several pay raises . . . and then that long, long stretch "on the shelf." You want to keep on climbing. You want to feel that you are getting somewhere. But how?

I. C. S. can show you. A little more training could be all you need to get back in the *upswing*. An advanced course or a "refresher"—studied in your spare time—will help prepare you for the next step, will show that you are ready to handle more responsibility, a better job.

Trained men get the "breaks"! That's a fact proved over and over again by the records of former I. C. S. students.

You don't want to bog down in your job. You don't want to remain "on the shelf" with the untrained. Mail the coupon today for complete information on how you can join the steady climbers.
