Highlights of this issue

82

More power for your car

How auto makers squeeze more zing from pint-size engines—with minimal mpg loss.

78

What are comets made of?

Scientists may get a better idea next year when four spacecraft rendezvous with Halley's Comet.

86

Big bass from a little box

This tiny speaker system produces remarkably resonant bass notes—even on battery power.

94

Soil-cement paving—almost concrete-tough

You can use dirt to make paving that's rugged, inexpensive, and better-looking than concrete.
