Features FOR NOVEMBER, 1950

The Cover:

Artist Ray Pioch shows you a logical development of the Air Force's detachable-fuselage plane.

Pack Plane Drops Combat HQ.....98

This truck-trailer of the air may revolutionize the whole concept of military—and civil—transport.

Shaw Previews Studebaker's V-8...110

Wilbur Shaw takes you for a ride in the 1951 Studebaker powered by a brand-new V-8 engine.

What Tanks Do We Need?.....117

In Korea we got caught with our armor-plated breeches down. Here's what we're doing about it.

5-Way TV Mast Stretches Tallest Building.....132

Five TV and three FM stations join antennas atop New York's super-skyscraper to improve reception.

No-Nails House Hooks Together...138

A tricky locking system hooks panels together to make prefab houses of any size and shape.

Willys Tries F-Head Engine.....152

Willys reaches back into yesteryear for an engine head and comes up with a big surprise.

The Truth About Tiling a Floor....177

It isn't too hard, but there are some tricks you need to know. PS shows you the right way to do it.

Gus Saves a Birthday Party.....190

When a pixilated gas gauge threatens to bust up a marriage, the Model Garage Man hits on the hex.

Is Your Antifreeze Harmful?.....202

If you've got a good engine and want to keep it that way, learn how to spot the dangerous types.

Professional Designs for Amateur Santas.....207

Toys with top styling that you can make—a mounted cowboy, a tractor, and an animated seal.

Music Without Knobs.....215

This child's phonograph will be a sure hit on your gift parade with kiddies and parents alike.

8 Tips on Judging a TV Set.....221

These simple tests will help you buy intelligently when you go shopping for your television receiver.

Dart Drops 7 Miles to Try Wings.....108

Boxcar Doubles as Reefer.....115

THOUSANDS OF SKILLED AIRCRAFT WORKERS ARE NEEDED NOW!

REMEMBER those wartime jobs in the nation's aircraft plants? It was not uncommon for unskilled workers to draw \$75-\$100 a week. *Trained men virtually wrote their own tickets.*

If you've been reading the papers, you know what's happening today in the aircraft industry. Congress has just appropriated hundreds of millions of dollars for new planes, equipment and research.

The industry is undergoing an almost explosive expansion program. It means unlimited opportunities for the men who act NOW!

During the last war, I. C. S. trained thousands of aircraft workers—*more than any other technical school.* The training paid off in promotion and increased

pay. Hundreds of letters poured in every month reporting advancement in salary and position.

Fortunately, these courses are still available!

They have been revised and brought up to date to include the latest developments in aircraft design and manufacturing techniques.

Look over the subjects listed in the coupon and pick the one that interests you most. Information will be rushed to you by return mail. Within a short time you can begin your studies—progressing as rapidly as you wish.

Get in on the ground floor! The best jobs won't wait! Mark and sign the coupon now—before you turn this page.
