Performance assured with:

- 1 **2-in-1 CHROME PISTON RINGS.** Both TOP ring and OIL ring are plated with thick, solid chrome, giving wear protection where heat is highest, pressure greatest, lubrication poorest!
- 2 **NURLIZING.** Restores pistons to correct fit quickly, accurately and permanently, at a fraction of new piston cost.
- 3 **STEEL TOP RING GROOVE SPACER.** Precision-made to compensate for increased groove width and to retard top ring and ring groove side wear.
- 4 **MANULATHE.** Accurately and quickly regrooves worn top ring grooves. Gives new top rings a break...not breakage!
- 5 **PLASTIGAGE.** Bearing clearances are quickly and accurately checked, in as little as one third the time required by older methods!
