Four weeks' notice is needed to change a subscriber's address. Please give both old and new addresses, including postal zone numbers.

NOW...A SENSATIONAL NEW KIND OF HAMMER

**TRUE TEMPER
ROCKET* No. A16**

**GUARANTEED
INDESTRUCTIBLE
IN ALL NORMAL HAMMER USE**

Next time you're in your favorite hardware store or tool department, ask to see the sensational new True Temper Rocket hammer. Try its wonderful "feel" and "swing" that come from its new kind of grip and shaft and from its perfect balance. You'll want this fine new tool to use in your workshop or on your job.

The new Rocket is backed by True Temper's 112 years of integrity in supplying top quality tools to American craftsmen. It is guaranteed indestructible in all normal hammer use.

WORLD'S STRONGEST
The shaft of the new True Temper Rocket is made of the finest, chrome-plated boron tubular steel. It won't break . . . it won't bend . . . even if you run over it with your car.

SHOCK-ABSORBING CUSHION GRIP

Comfort is built into the new-type grip that soaks up impact shocks before they get to the hand or arm. Bonded to the shaft . . . won't turn . . . won't come loose. Doesn't slip even when wet.

HEAD CAN'T COME OFF
The octagon-shaped forged steel head won't come loose . . . will never fly off. Shaft is wedged into the head. A steel pin, through head and shaft, holds head permanently tight. Precision claws bite even smallest nails.
