page 40: Jobson tells why you should reload your own shells

page 46: picture essay of smallmouth fishing

page 72: a lighthearted story by an old-time great

page 44: field testing the new graphite rods

One of a continuing series. **Remington Reports**

You don't get to be the world's most popular skeet gun without some good reasons.

The reasons: reliability and target-breaking consistency.

The country's highest 12 gauge skeet average for 1972—99.9%—was achieved with a Remington Model 1100 and Remington "RXP" target loads exclusively.

The 1971 and 1972 World All-Gauge and High Over-All Skeet Championships were won with 1100's.

In fact, over 50% of all contestants who shot in the four gun events at the 1973 World Skeet Championships relied on Remington Model 1100's.

The 1100 breaks targets. For the Class C and D shooter as well as the man with the top average. Just ask any shooter who uses one.

The 1100 system delivers a minimum recoil sensation—a gentle push instead of a punch—that reduces fatigue. So that you—and it—can stand up during long, grueling events and shoot-offs.

Point an 1100 skeet gun. You can feel the difference. It's specially balanced to help you hold steady, point fast and swing smooth.

The Remington 1100 SA is available in 12, 20, 28 and 410 gauges, with ventilated rib barrels, American walnut stocks and fore-ends, special skeet chokes and interchangeable barrels.

There's also a mirror-image left-hand version of the 1100 SA in 12 and 20 gauges.

Our Deluxe SB grade 12 and 20 gauges have all the features of the 1100 SA, but offer a selected, richly figured American walnut stock and fore-end.

Model 1100 SA Skeet
\$229.95*

Great guns deserve great ammunition. We make both.

1100 shooters break more targets with factory shells and reloads alike. For topflight performance, especially in championship events, team up with Remington "RXP" target loads.

No shell available beats "RXP" shells for reloadability. Look for them in their distinctive new green packaging.

Find out more about the dependable Remington 1100 skeet gun—and all Remington products. Send a postcard to Remington Arms Company, Inc., Dept. 502, Bridgeport, Conn. 06602.
