

# THE AMERICAN RIFLEMAN

OFFICIAL JOURNAL OF THE NATIONAL RIFLE ASSOCIATION OF AMERICA

APRIL 1972

This issue—1,049,000  
88th Year of Publication

## THE COVER

The deluxe Grade B Remington-Keene sporting rifle, cal. .40-60 Marlin & Ballard is from the NRA Firearms collection. It has a 24½" half-octagon barrel, weighs 9¼ lbs. and was priced at \$35 in the 1880 E. Remington & Sons catalog shown. The contemporary Remington resizing tool is from the collection of John T. Amber, while the boxed .40-60 Marlin & Ballard ammunition was furnished by James C. Tillinghast. Photo by *American Rifleman* Assistant Editor Rolfe M. Baggett on 4x5 Ektachrome using studio lighting.

VOL. 120, No. 4

# THE AMERICAN RIFLEMAN

APRIL 1972 75 CENTS

Remington's Bolt-Action  
With A Hammer

*Merely.com® Gift Quality Magazine*

This Gun is now being made for the U. S. Military Cartridge, 45 Cal., 75 grs. powder. The magazine is located under the barrel thereby enabling it to carry the greatest possible number of cartridges within a given weight and length of barrel. It is believed that this is far many reasons the gun position in which to carry the cartridges of a magazine rifle. All of the motions are direct and positive. The cartridges are held securely in position when passing from the magazine over the carrier to the chamber in which respect the gun has a decided advantage over other magazine rifles. The carrier does not pass on to the carrier until there is no danger of a cartridge being expelled to the carrier in case a defective cartridge is fired in the gun.

The arm is always left at half-cock and the breech locked so that it cannot be jarred open and the cartridge ready from the half-cock it can be brought to the shoulder and quickly while the arm is held in the trigger in this last position without removing the hand from the trigger, the trigger is cocked by removing the hand from the trigger, the trigger is moved and replaced for the purpose of cleaning or inspection. The magazine is so arranged that it can be changed while the breech is closed. The gun may be held either horizontally or vertically.

**ARMY RIFLE.**  
Carrying 10 Cartridges, 45 Cal. U. S. Model, 9 in Magazine, 1 in the Chamber.  
Barrel 42 1/2 inches. Weight without Bayonet 9 1/4 lbs.
