

PATTERNED FOR SUCCESS!

Howa

We combined the incomparable Howa barreled action with a rugged lightweight carbelite stock to give you one of the finest hunting combinations available today! But we didn't stop there! They're custom figured in one of the most versatile camouflaged patterns now offered -- the Realtree Brown Leaf pattern! The Howa Camouflaged Rifle features a mono-block receiver - machined from a

carbon steel, three-rail action for a faster bolt, a positive sliding thumb safety, hinged floor plates for fast, safe unloading, drilled and tapped for scope mounts, sling swivel stud and recoil pads and available in .30-'06 and .270 calibers

THE COVER: Sigarms' .40 S&W P229 pistol, the newest entry in the .40 cal. derby, is being assembled at the firm's New Hampshire plant with both U.S. and German-made components, the first manufacturing operation here for Sigarms. Senior Associate Technical Editor Robert W. Hunnicutt's report on the new gun, along with his fresh reloading data for this promising cartridge, begin on p. 38. Design by Stephen H. McKelvain, photo by Carl Neustrand.

CAUTION: All technical data in this publication, especially for handloading, reflects the limited experience of individuals using specific tools, products, equipment and components under specific conditions and circumstances not necessarily reported in the article and over which the National Rifle Association (NRA) has no control. The data have not otherwise been tested or verified by the NRA. The NRA, its agents, officers and employees accept no responsibility for the results obtained by persons using such data and disclaim all liability for any consequential injuries or damages. See asterisk * section page 4.
