THE COVER: Their appetites only whetted by passage of the Brady bill, anti-gunners in Congress are preparing for an unprecedented assault on American gun owners—everything from national registration, to ammunition bans, to semi-automatic firearm bans, to even the creation of a National Ammunition Feeding Device Registry, is under consideration. ILA Executive Director James Jay Baker tells it like it is in this month's special cover story beginning on p. 36. Cover design by Doug Barnes; photo by John R. Lamson.
