

Twin Homes but— one has "zebra" ceilings!

NOT INSULATED. Poor Mr. Ames has "zebra" ceilings—ugly lath marks showing through in every room. Had he only installed KIMSUL, he wouldn't be looking for decorators—his family would have been much warmer all winter, the way the Allens were across the street...

KIMSULATED. "Mary, look at those ceilings. Not a lath streak in sight. Sure glad we installed KIMSUL—it saves decorator bills and cuts fuel costs; keeps our house warmer in winter, cooler in summer." Right! KIMSUL pays for itself. Why not Kimsulate your house now?

Spring Housecleaners! Now's the Time to Install Low-Cost KIMSUL*

KIMSUL is the only insulation with many-layer construction. Unlike loose, bulk insulation, KIMSUL is prefabricated. Stitched together, the many layers form a blanket of uniform thickness from end to end. Thus, KIMSUL assures you the same uniform insulation over every inch... today, and years from now.

If you can handle a hammer, you can easily install KIMSUL. And the best time to do it is during spring "clean up." Do it now—have a cooler house all summer.

Selection of KIMSUL for the U. S. Navy Quonset Huts—world's largest prefabricated housing project—is your assurance of quality. Order KIMSUL from your lumber or building supply dealer, hardware or department store—do it now.

*KIMSUL (trade-mark) means Kimberly-Clark Insulation
