There are so many reasons to own a Bose® Lifestyle® DVD system.
And we've just added a new one.

Introducing the breakthrough ADAPTiQ® audio calibration system.

Customizes sound to your room, so your Lifestyle® DVD system
will sound best where it matters most. And it's only from Bose.

No two rooms sound exactly the same. Where you place your speakers, room size and shape, reflective and absorption qualities...even whether a room has rugs or hardwood floors can affect sound. And until now, there wasn't a simple way for home theater systems to account for these variables. Introducing the new ADAPTiQ audio calibration system, now available in Lifestyle®35 and 28 DVD home entertainment systems. It listens to the sound in your particular room and automatically adjusts your Lifestyle® system to sound its best. So now, no matter what your room's acoustics, you'll enjoy action-packed movies and lifelike music delivered by a system performing to its fullest potential. ■ The ADAPTiQ system is just one reason you'll enjoy our Lifestyle® systems. Some others: An elegant media center with built-in DVD/CD player. Barely noticeable cube speakers. An Acoustimass® module that produces rich impactful bass. And an advanced universal remote that controls your system – even from another room. Bose Lifestyle® home entertainment systems. Now with the ADAPTiQ system, the height of our technology just got higher.
