ADAM GOPNIK
PARIS
to the
MOON

"The finest book on France of recent years. There are profound and hilarious reflections here....Places [Gopnik] in the tradition of nonfiction writing that starts with Montaigne and includes the essays of Baudelaire, Camus and of course Barthes himself."

—ALAIN DE BOTTON,
THE NEW YORK TIMES BOOK REVIEW

"The relationship between America and France has long been a love-hate affair, and Gopnik captures its seductive allure.... For anyone who has ever struggled with the paradoxes and pleasures of visiting France, or for anyone who hopes to make that voyage (everyone, I trust), this is the book for you."

—PHILADELPHIA INQUIRER

"Gopnik's is the thinking man's Paris, a place whose appeal is so evident, yet still worth pondering."

—SAN FRANCISCO EXAMINER

You don't test its performance
so much as you test its wits.

When the road pitches or bends, the S-Class knows precisely what to do. It engages Active Body Control,* which instantly detects and corrects body roll. So you remain level, in spite of the road's intentions. Again, you're reminded that the Mercedes-Benz S-Class is perhaps the most intuitive car ever built. Call 1-800-FOR-MERCEDES or visit MBUSA.com. **The S-Class**

Mercedes-Benz

*Active Body Control standard with the S600 or S55 AMG and optional with the S430 and S500. Active Body Control replaces the Airmatic Suspension in the S430 and S500. AIR BAGS ARE A SUPPLEMENTAL RESTRAINT SYSTEM, SO REMEMBER AIR BAG SAFETY: BUCKLE EVERYONE AND CHILDREN IN BACK!
