I Want to Buy ... 242 ... and where can I get it?

If you're the kind of photographer who makes big demands of a camera, all-new Miranda FV is the camera for you. Because this modestly priced SLR can do just about everything. And do it perfectly.

Designed for versatility, the FV accepts well over 1,500 lenses and accessories, including those designed for practically every other single lens reflex on the market. Which means that it's the ideal tool for macrophotography, microphotography, underwater shooting, portraiture, candid 'grab' shots and virtually every other application that may interest you today. Or years from now. From its interchangeable pentaprism to its world-famous razor sharp f1.9 Miranda lens, the FV stands alone in its class for quality, easy handling and adaptability to any shooting situation.

And because it's a Miranda, the FV is a camera you can own with complete confidence. For it's a superb example of the kind of precision craftsmanship and painstaking quality control that enable Miranda cameras to carry the

New Miranda FV does everything.

This little lens is one of
1,500 accessories for
the new Miranda FV.

How's that for an SLR
