## the new I.C.S. COURSE in RADIO SERVICING

Build this 6-tube, two-band, AC/DC, superheterodyne receiver. Put it through various tests and analyses used in modern radio service shops. Learn by study! Learn by doing!

**HERE IT IS!** A Radio Servicing course that is complete, thorough, extremely practical. This is the training for the man who wants a good job in radio — or a profitable radio service business of his own.

It's new! It's up-to-the-minute! Texts and job sheets cover all the equipment you are likely to meet in practice, including facsimile, television and FM.

A complete kit of high-quality, standard-brand, matched radio parts is supplied with the course. Assignments cover assembly, wiring, soldering and testing.

You get this set of professional-quality tools early in the course. Illustrated instruction sheets show you how to use them correctly.

Success-proved I.C.S. training methods — combined with the finest training equipment available — make this course an outstanding training opportunity. Find out more about it. Mail the coupon TODAY.
