Now Elmer's helps you fill, caulk, seal, patch

Elmer's Instant Spackling Paste is a ready-to-use compound that puts an end to wasteful and messy mixing. Just press the stem of the aerosol container for the right amount to fill holes, cracks and low spots in plaster, wood or composition walls before painting. Dries in minutes and sands to a feather edge.

Elmer's Tub Caulk is an elastic sealer, ideal for waterproofing jobs in kitchen, laundry and bath. The handy squeeze tube delivers a satin-white bead that won't discolor or crumble. Simply remove excess with water, no solvents needed. Safe for any surface, nontoxic and odorless. The Borden Chemical Company, 350 Madison Ave., N.Y., N.Y. 10017 (Available in Canada.)
