

# The Suspension Exper

Custom CAD  
Designed Crossmembers  
Available For Immediate Delivery  
1935-40 FORD • 1928 PLYMOUTH  
1949-54 CHEVY • 1937-39 CHEVY

**IFS Package**  
With Weld-In  
Crossmember/  
Subframe  
from  
**\$1099**

Art Morrison Enterprises elevates the independent front suspension to new levels of excellence with this thoroughly engineered package. Arms are made of super strong 4130 chrome moly tubing, beautifully chrome plated and fitted with polyurethane bushings. Coil-overs (for front application) and 3-position Gabriel adjustable shock absorbers provide desired ride, while a completely fixture-welded crossmember (for front subframe) attaches to your chassis. Each assembly is custom-designed for the application utilizing CAD technology. Many popular vehicles are available. Add Mustang II spindles, brakes and steering. From \$1099. Add \$140 for polyurethane-bushed, chrome plated components.

**Custom Built For Your  
Exact Make/Model Car  
Using CAD Technology!**

**TRAILER BARS & 4-LINKS**  
Engineered for optimum traction control to last! Heavy-duty tubing is black painted for extra durability and good looks. Double end packages available. Double ladder bar from \$215. Add \$20 for polyurethane bushings. 4-link kits from \$160.

**COIL-OVERS**  
The most cost-effective setup includes coil springs rate-of-rise and mounting brackets. 3-position Gabriel adjustable height adjustability with 60 lbs. for front or rear pair. On has many other great products for the do-it-yourself builder. Send \$5 for a free catalog. It contains valuable tech information.

## 4-LINK CLIP

Install a late model rear end in any vehicle the easy way with a custom-built clip assembly. The 2x3" rectangular tube frame rails are designed for optimum performance utilizing CAD technology, then precision formed on mandrels for "wrinkle-free" construction. The rails, crossmembers and suspension equipment are fixture-welded to assure proper alignment and ease of installation. \$449 for ladder bar or 4-link rear suspensions. Narrowed 9" Ford rear end housing. Available for ladder bar or 4-link rear suspensions. \$499 for wheel tubs from \$75. Call for information on assemblies offered in various configurations.

## JFZ DISC BRAKE KITS

Nobody knows these premium quality brake kits better than Morrison. In fact, Art Morrison Enterprises is the official factory representative at many auto shows and races. The popular "Pro/Street" models are ideally suited for most street rod applications. Complete rear brake kits are priced from \$549. Includes calipers, rotors, pads, mounting brackets and hardware. Call for tech info. selecting the JFZ system best suited to your vehicle.
