

This New Smoothie does perfect paint jobs!

EAGLE Ready-To-Use PURE WHITE LEAD

Want to experience a new painting thrill? Want to get real fun as well as maximum satisfaction from your next paint job? Want to discover a super-smooth, easier-to-apply, longer-lasting paint?

If you do (and who doesn't!), try painting with Eagle Ready-To-Use White Lead.

Ready-mixed . . . all set for the brush!

Eagle R.T.U. White Lead requires no mixing — it's factory-mixed to exactly the right consistency. You just stir and apply! Eagle R.T.U. has all the protective and beautifying qualities of famous Eagle White Lead Paste *plus* a remarkable new smoothness of flow and ease of brushing. You have to use Eagle R.T.U. to appreciate these qualities fully.

White lead is the best protection known for painted surfaces, and there is no finer white lead than Eagle Ready-To-Use! It forms a flexible, weather-defying film that ages gracefully, doesn't crack or scale, but leaves a smooth surface for eventual repainting. And it has unusually broad coverage and great hiding power.

Eagle Ready-To-Use White Lead comes in two forms: Primer-Sealer Coat and Outside White Finish Coat. Available in one and five-gallon pails. White only.

Worth Waiting For!

Under present wartime restrictions, Eagle Ready-To-Use White Lead Paint — as well as the old reliable Eagle White Lead in Oil — are not always or everywhere available. But they give lasting protection and beauty that are well worth waiting for.
