

Give your music  
this glorious new voice!

IT WILL BE a glorious day—that day you first sit at a Hammond Organ and start expressing yourself in music's most glorious voice.

You'll hear the mellow notes of woodwinds, the boldness of brasses, the tender sigh of strings lending richness and color to any piece you play. You'll range, with ease, from hushed whispers of infinite beauty to thrilling fortissimos.

Whether you're an accomplished musician or a novice—whether you

prefer classical or popular music—you'll discover within yourself musical depths no other instrument has the resources to release.

And the vast range of tone and wealth of color of the Hammond Organ do more than glorify your music. They encourage you to play. For you can render any passage in so many different ways that you're constantly inspired to continue—to explore—to lose yourself in endless hours of musical enjoyment.

THE HAMMOND ORGAN has been bringing enjoyment to the homes of thousands of music lovers for many years. It produces all its tones electrically and it can't get out of tune. It is hardly larger than a spinet piano, and is easily

moved. It has long been used and acclaimed by the world's most eminent musicians. If you would like complete information—if you would like to see, hear and play the Hammond Organ, without obligation, mail the coupon today.
