

NOW! Dental Science Shows That Brushing Teeth Right After Eating with COLGATE DENTAL CREAM STOPS TOOTH DECAY BEST

Better Than Any Other Way of Preventing Tooth Decay According to Reports in Authoritative Dental Literature!

2 years' research at 5 great universities—case histories of hundreds of people who used Colgate's right after eating—shows the Colgate way stops decay best! Better than any other home method of oral hygiene known! Yes, clinical and X-ray examinations showed the Colgate way stopped more decay for more people than ever before reported in all dentifrice history!

No Other Toothpaste or Powder Ammoniated or Not Offers Proof of Such Results!

Even more important, there were no new cavities whatever for more than 1 out of 3 who used Colgate Dental Cream correctly! Not even one new cavity in two full years! No other dentifrice has proof of such results! No dentifrice can stop all tooth decay, or help cavities already started. But the Colgate way is the most effective way yet known to help your dentist prevent decay.

ALWAYS USE COLGATE'S TO CLEAN YOUR BREATH WHILE YOU CLEAN YOUR TEETH—AND HELP STOP TOOTH DECAY!
