Once only "Park Avenue" could afford them—

NOW MODEST-INCOME HOMES BOAST PERCALE SHEETS, TOO!

NO LONGER need thrifty housewives hoard a pair or two of percale sheets for the guest-room bed, while the family sleeps on heavy-duty muslin.

For famous Cannon Mills have succeeded in producing a luxurious percale sheet at a price so low that even closely-budgeted homes can afford them on every bed, every night!

One luxurious stretch between Cannon Percale Sheets will make you want them the rest of your life! That caressing smoothness—that cool, silky freshness—brings an extra thrill in the thought that Cannon Percale costs only about a dime more than you'd pay for top-grade muslin.

Close your eyes and compare the "feel" of Cannon Percale with muslin when next you go shopping for sheets. Your sensitive finger tips tell you that percale is not only smoother, but firmer—more closely woven. There are 25% more threads to the inch in Cannon Percale than in even the finest grade muslin.
