## Bagger keeping you on your toes?

**Drop the seat of your ride by 3 full inches without changing the stock suspension or ride height!**

The Biker's Choice Drop Seat Kit for '09-'11 HD® Touring models.

Available in both Standard or Narrow sizes, this kit helps keep you riding in comfort and style. The stock fender, fender struts and saddlebags all remain at stock height. Only the seat itself drops, maintaining the lines of your bike and giving your bike that slammed look without sacrificing the handling and clearance like most aftermarket lowering kits - no welding or cutting involved!

**BIKER'S CHOICE**  
ANNIVERSARY
