A LOT OF PISTOL

You'll hear a lot about the MEDALIST, because it's the type of pistol that makes a marksman a champion. And you'll see a lot of them too, because it's the kind of pistol that makes a marksman out of an average shot.

Special features include a contoured walnut stock (right or left hand); a fully adjustable micrometer sight; variable weights, interchangeable with its walnut forearm; a fully adjustable trigger; a dry-fire mechanism which permits easy practice firing for hours, merely by depressing a button between each trigger pull; precisely calculated balance and weight — and it's as much a masterpiece in fit and finish as it is in mechanical perfection. Included is a luxurious fitted case with lock, shell block, and all attachments.

The NOMAD and CHALLENGER are for the sportsmen who like fine accuracy but in a less specialized model. All three models have a wrap-around stock; a wide, crisp trigger; a fully adjustable rear sight, non-moving; the facility to easily interchange barrels without fitting; 10 round magazine capacity in .22 Long Rifle. Each is a lot of pistol.

The Challenger \$64.95
4 1/2 or 6 3/4 inch barrel
35 ounces — 8 7/8 inches long

The Nomad \$49.95
