COMMENTS FROM OUR MAIL

"My 8 x 30's are used for hunting, watching for deer, elk, and mountain sheep. I like them for their small size and compare well with much larger glasses costing up to \$200."
—H.D., Casper, Wyo.
"The 7 x 35 binoculars are a very good buy. At any range they focus very well and especially on ducks on Lake Ontario."
—A.S., Rochester, N. Y.
"I am a border patrolman and use my 7 x 50's on the job. They perform as well as much more expensive American made binoculars."
—W.K., Sanderson, Texas
