Vol. 104, No. 7 July 1956

## THE NRA

The National Rifle Association of America is a nonprofit organization supported by the membership fees of public-spirited citizens. Its purposes are to educate and train citizens of good repute in the safe and efficient handling of firearms; to foster a knowledge of small arms and the ability to use them among members of law enforcement agencies and the armed services, and all other citizens who would be subject to service in the event of war; to promote social welfare and public safety, law and order, and the national defense. Membership in NRA is available to any reputable citizen of the United States upon nomination by a current member.

## COVER

These two enthusiastic young marksmen, photographed at the National Matches at Camp Perry, Ohio, last year by Paul Gunnell, typify the youngsters reached through the NRA's Junior program. This program, through clubs, schools, and summer camps, has been the means of training hundreds of thousands of youths in basic marksmanship and safe handling of firearms

THE AMERICAN RIFLEMAN is published monthly by The National Rifle Association of America, 1600 Rhode Island Avenue, N. W., Washington 6, D. C. for the benefit of its members. Dave Bushnell says:

*Mystery Master solves last wilderness secrets—*

Erle Stanley Gardner, who writes thrilling fiction about fast-moving characters of the big cities, is, by choice, a lover of the great outdoors. His natural curiosity is insatiable. He is a constant visitor to out-of-the-way places — the more adventuresome and untraveled, the better he likes them.

Some years ago, Mr. Gardner published THE LAND OF SHORTER SHADOWS, the story of a motor trip to La Paz, in Baja California. Now, he has written NEIGHBORHOOD FRONTIERS, an adventure book of wildest British Columbia, Baranca country in Mexico, and our own American desert. It's as thrilling as his Perry Mason mysteries. Great outdoor reading! If you are interested in the exciting majesty of North America's last unspoiled wilderness, be sure to read these books. Much of what Erle describes could be seen only through his Bushnells . . .

Until recently, he was equipped solely with Bushnell Rangemasters. These he pronounced outstanding. Now, he has added the new Bushnell 7X Bino-Foto model, a magnificent glass, literally without equal. Because of its superb clarity, it can be used in front of a camera to take long-distance telephoto pictures—pictures which this world-traveler says: "astonish me"! Let me add that his enthusiasm for his Bushnells is equalled only by our fervent admiration of his outstanding literary ability.
