BETTER HOMES & GARDENS, FEBRUARY, 1944

Don't accept less than a  
**Certified Insulation job!**

#### — TO SOLVE YOUR FUEL SHORTAGE PROBLEM

"Insulation," says the U. S. Bureau of Mines, "is no better than the man who installs it."

It's sound judgment therefore to insist on the insulation job for your home that gives maximum efficiency. Eagle Home Insulation is sold only by authorized Eagle Contractors, who will insulate your property according to sound engineering principles, and give you a written certificate covering the work.

#### WHAT IS AN EAGLE CERTIFIED JOB?

1. A Certified job is carefully planned and based on an accurate survey of your property. Insulation is applied in accordance with factory-engineered specifications. It is applied *every* place necessary for a *thorough* job — not a half, nor a two-thirds job.
2. Only genuine Eagle Mineral Wool Insulation is used. This material is fireproof, water-repellent, and does not lose efficiency by "settling." It lasts a house-time. It is chemically and physically stable.
3. Material is pneumatically blown to the correct thickness into sidewalls and ceilings, without mess or trouble. Eagle workmen are thorough, cut no corners.
4. Proper ventilation wherever necessary (without which, trouble-free results cannot be certain).
5. Benefits: fuel savings up to 40% in winter; temperatures as much as 15° cooler in summer. Added fire protection. A more dust-free house. Maximum comfort all year 'round.

#### The Eagle Contractor Near You...

will gladly furnish fullest particulars on your Eagle Certified Insulation Job.

The Eagle-Picher Lead Company  
Dept. B-24, Cincinnati, Ohio  
Gentlemen: Please send me complete facts about a certified job with Eagle Mineral Wool Insulation.
