CAR and DRIVER

THIS MONTH'S COVER: Ford's Can-Am racer, the G7-A, is captured by noted Detroit illustrator Richard Soules. It's wild, it's winged, and it's powered by a double overhead-cam, 7-liter V-8 with three valves per cylinder. For the story on this and all the Can-Am cars, see page 30.

NEXT MONTH'S COVER: Sorry, we promised not to show any photos of this exciting new rear-engined sports car . . . but nobody said we couldn't show this artist's conception. What is it? Be sure to buy the December issue and find out. On sale at your newsstand on November 16.
