

## ON THE COVER

It's true—we have no shame when it comes to first-gen Camaros, and, quite frankly, it would be a lie if we didn't admit to drooling at Lee Novikoff's LS1-powered '69 Z/28 RS. Add in the trick six-speed, the MagnaCharger huffer, and you get all the perks of a late-model performer with classic musclecar styling. Photo by Henry D while experiencing what heat and humidity really means in Houston, Texas.
