**COVER:** Magnetos are not really capable of the black magic sometimes attributed to them. Starting on **page 52**, we'll tell you what they are capable of and who makes what. The photography for the cover was done in the PPC photo department by Pat Brollier and

Mike Gaspar. Mike Turek shot the Spring Sizzler photo at the first major Modified show of the year. Coverage of the Stafford Springs event begins on **page 97**, proving that the NASCAR Modifieds are alive and well in the Northeast.
