THE SIG SAUER P 225... Compact Power, On Or Off

A lightweight pistol with 9mm performance, the SIG SAUER P 225 is always ready for instant use. The double action trigger and patented firing pin lock eliminates the need for clumsy, manual safeties. Draw the pistol and fire. The high visibility sights make target acquisition fast and accurate even in poor light conditions.

This nine shot autoloader (8 plus 1 in the chamber) is one of the safest pistols you can carry. The decocking lever allows the hammer to be lowered safely into the intercept notch, fully safe and ready to fire with a round in the chamber.

Equally impressive is the pistol's easy handling. Ergonomically-designed grip angle, magazine

release and decocking lever.

The smooth, light weight design makes the P 225 a perfect for off duty service pistol. It's a true revolver to semi-automatic design.

Call us today for more information. Let him sell you the SIG SAUER P 225.
