YOUR JULY-AUGUST COVER

The handloader on this month's cover has just ejected a newly made bullet from the Corbin bullet forming die. The bullet jacket was made in the Corbin jacket forming die from a .22 rimfire hull while the lead core was cast with the out-of-focus mould in the background. The dies are used in the heavy C-H Champion press. Regular readers will recall Rick Jamison reported on the surprisingly good performance of these bullets in the July-August 1975 *Handloader*.
