### LIFE'S PICTURES

Photographing the girls on the Lake Shore Swimming Team (pp. 94-97) was one of Jack Wilkes's first assignments after moving to Chicago to make pictures for LIFE. Formerly a Hollywood free-lance photographer, Wilkes found the Lake Shore girls no come-down from Hollywood's. Other recent Wilkes stories published in LIFE were his "reformatory girls follies" (LIFE, May 8) and his call on Baylor University's Browning expert (LIFE, May 29).

The following list, page by page, shows the source from which each picture in this issue was gathered. Where a single page is indebted to several sources, credit is recorded picture by picture (left to right, top to bottom) and line by line (lines separated by dashes), unless otherwise specified.

"Tear into it, Honey—  
It's Infectious Dandruff!"

*Pityrosporum ovale*, regarded by many leading authorities as a causative agent of infectious dandruff.

As a precaution against infectious dandruff, thousands combine Listerine Antiseptic and massage with their regular hair-washing.

THIS simple, easy, wholly delightful treatment acts as a precaution against the infectious type of dandruff, and as a highly efficient aid against the condition once it has gotten a head-start.

Listerine Antiseptic treats the infection as infection should be treated . . . with quick germicidal action.

It kills millions of the stubborn "bottle bacillus" (*Pityrosporum ovale*) which often grows in vast numbers on the scalp. This ugly little invader is held by many a dermatologist to be a causative agent of infectious dandruff which afflicts so many.

Find out how quickly Listerine Antiseptic, used regularly twice a

day, helps to get rid of those disturbing excess flakes and scales. How it alleviates itching!

Your scalp glows and tingles, and your hair feels wonderfully fresh.

Remember, in clinical tests 76% of dandruff sufferers showed marked improvement in or complete disappearance of the symptoms of dandruff after 30 days of this treatment.

Get into the habit of using Listerine Antiseptic systematically. It has helped so many . . . may help you. Remember—Listerine Antiseptic is the same antiseptic that has been famous for more than 60 years in the field of oral hygiene.
