**REMEMBER HOW MOTHER TOLD  
YOU NOT TO CUT IN LINE?  
SHE DIDN'T LIVE IN AIRPORTS.**

In our book of etiquette, when you spend half your life flying, you shouldn't have to spend the other half waiting in lines at the airport. That's why we give you access to United's Web site and to United Connection, a software program that lets you make reservations and select the best available seats on your PC. That way, you can spend less time in airports and more time at home. Mother would like that. Compared to the rest of the industry, United is heading in a different direction.

With United Connection® software, you get the best fares and can select your own seat from your home or office.

On United's Web site, you are always first in line for checking flight schedules and availability.

Electronic tickets help you avoid lines and hassles. You can bypass the ticket counter and go straight to the gate.

For more information about United Connection, call 1-800-626-7973, or visit us at [www.ual.com](http://www.ual.com).
