

HIGHLIGHTS OF THIS ISSUE:

New Research on Steel-Belted Radial Tires PAGE 72

Can skids be eliminated? PS reports what the tire and auto industries are doing to lick wet-traction driving problems.

Astronomers' Great New Triumph—Eyeing the Stars from Space PAGE 76

Hidden secrets of the universe are being revealed by our new orbiting observatory Copernicus and its fantastically precise 32-inch telescope.

A/C for '73: More Cool, Less Current PAGE 79

High-efficiency units save energy—and shrink your cooling bills.

18 Months and 30,000 Miles on a Wankel PAGE 84

We tear down our Mazda RX2, find gears like new, seals good for another 60,000 miles, emission controls in reasonably good condition.

Extend Your Plumbing with Plastic Pipe PAGE 124

Now you can do almost any plumbing job without special tools or skills.

COVER PHOTO BY JOE FARKAS

When you need to tame the tough country, you need Monroe Load-Levelers.

On road or trail, loaded or towing, our Monroe Load-Leveler® stabilizing unit has everything it takes to make the going easier and safer. Our Shock and a Half is the heart of it. A shock absorber with 50% more shock capacity than the standard one-inch shock. To this we add a calibrated spring to beef up standard suspensions. Together they make the Load-Leveler a match for anywhere you want to go. Load up with passengers, pack in gear, hitch on a trailer—the Monroe Load-Leveler combination of the Shock and

a Half plus the spring assist takes it all in stride to give you a stable, safe ride on all roads under all conditions. And they're guaranteed for the life of your car for as long as you own it, with proof of purchase. Installation extra. We know more about shock absorbers because our only business is making shock absorbers.

MONROE® Monroe Auto Equipment Company, Monroe, Michigan 48161.

Monroe The Shock and a Half.
