# REDUCES ENGINE WEAR

If you do a lot of stop-and-go driving, your engine's worst enemy—sludge—is building up fast. You can't see it—but it's there. Sludge clogs oil passages and increases engine wear... adding to your repair bills. Now you can guard against sludge—with Du Pont M.O.A.—the exclusive Du Pont development that prevents sludge formation on engine parts. One can of M.O.A. added to your crankcase at each oil change helps keep your engine cleaner, quieter and smoother-running under all driving conditions. M.O.A. goes to work instantly to keep oil passages open and sludge-free. Don't let deadly engine sludge bring you poor performance and high repair bills. Reduce engine wear with Du Pont M.O.A.—at service stations or wherever auto supplies are sold. Just \$1.65\* a can.

\*SUGGESTED RETAIL PRICE.

**No "7" MOTOR TUNE-UP** restores lost engine power, dissolves gummy deposits, frees sticky valves.

**GOLDEN "7"** stops oil burning. Quiets noisy valves, increases compression for better engine performance.

**DU PONT NO "7" ADDITIVES**
