

Popular Science

The **What's New** magazine

OCTOBER 1981
Founded in 1872/Vol. 219, No. 4

MONTHLY®

**HIGHLIGHTS
OF
THIS ISSUE**

The race is on to build the world's mightiest telescopes
Designers focus on elusive technologies to hurdle size and cost barriers. PAGE 64

1982 cars—new fall introductions from Detroit
GM's compact pickup, a baby Continental, Chrysler's front-drives, more. PAGE 89

Cruise missiles: Canny engineering gives them cunning
On-board computers "read" the terrain to fly low and fast at targets. PAGE 70

From the Far North: lessons on how to slash fuel bills
New building techniques can be adapted to energy-wasteful older homes. PAGE 106

All about nails—the long and short of driven fasteners
There's a bewildering array to choose from. Which one suits your job? PAGE 118

COVER ILLUSTRATION BY DEAN ELLIS

CARS AND DRIVING
