FEATURES

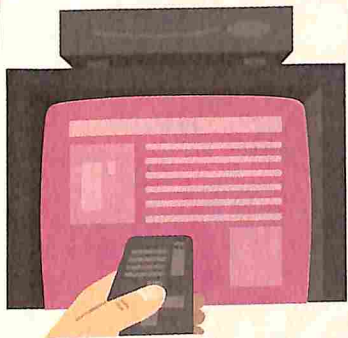

49 **Web TV** Finally, you can channel-surf and browse the Web on the same tube. But the ballyhooed TV-Internet "convergence" may take some getting used to.

55 **Five-Year New Car Preview** Here's what's happening and what's not as carmakers face the millennium. Electric vehicles are at the leading edge.

62 **How Safe Is Your Water?** Don't take your drinking water for granted. Here's why you should get it tested and how.

70 **Get a Grip** When Jack Frost is at his worst, you need the best brakes you can get. Our Winter Test evaluates braking and traction control systems that stand up to ice, slush, and snow.

62
The disturbing
truth: Any
source can
become tainted.

49
Elegantly simple
interface: how
Web TV works.
