NINE REASONS WHY

this beautiful '67 Chrysler makes a better trailer tractor than any car you can name.

1. Our smallest engine is a 383 cubic inch V-8—one of the biggest made that runs on regular gas.
2. An optional 440 TNT is the biggest V-8 in Chrysler's price class.
3. The biggest brakes in Chrysler's price class are standard.
4. Heavy-duty drive train, larger axle shaft, specially-designed ring and pinion gears increase durability.
5. A torsion-bar suspension system provides more stability, more roadability.
6. A 3-in-1 front seat is available for some models. Converts from a 5-foot-wide sofa to individually adjustable seats. The passenger side reclines.
7. Automatic transmission, power steering, power brakes, power disc brakes up front—all are standard with certain models.
8. 18 safety features are standard, including Safety-Rim wheels.
9. And you can get the only trailer-towing package of its kind available on any car in Chrysler's price class. For the rest of the Chrysler trailer-towing story, send for our free brochure.
