**COVER:** There's only one thing sweeter than working on a cool project, and that's taking it for a ride when it's all done. That's just what we did with the popular, long-running Goodmark Chevelle Giveaway Project. Thanks to veteran freelance photog Dave "I'll make it happen" Emanuel we were able to catch the flamed machine in all its glory. Now there's only one thing left to do with this modern classic—and that's to give it away. The next time you see this black beauty in *SUPER CHEVY* it will be to announce the new owner. So stay tuned, it may be you getting the keys to this hot Bow-Tie.
