Event Coverage

72 Marked Territory
 Florida natives had home-field advantage at the Ford Power Festival

On the Cover
 The editor risked life and limb hanging out the window of a rental car to capture Brian Thorpe's wicked, flamed 5.0 coupe in motion. Brian's ex-highway patrol car shows just what you can do with a Mustang project car. However, you'll have to wait for an upcoming issue for the full report on this 351-powered beauty. For advice on building your first project Mustang, check out Tom Wilson's report on page 27.

5.0 MUSTANG & SUPER FORDS
