THE AMERICAN HOME, OCTOBER, 1938

Our Second Honeymoon

BEGAN WHEN WE GOT RID OF THE 4 BIG JOBS!

THE other day I carried Alice over the threshold of our home the way I did when we were first married 20 years ago. We were beginning our second honeymoon!

It all started last Spring when I said to Alice: "We ought to get more enjoyment out of life before we become a pair of old fogies. Couldn't we modernize this house so it wouldn't be so much work?"

"Frank," she answers, "there are 4 big jobs connected with house-keeping that keep us tied down. If we could find a way to lighten them—life would be a song."

We!—I looked into it, and

learned this wonderful good news! There's been a regular revolution in gas equipment and in the cost of using gas. Millions of smart folks have said "good-bye" to the 4 big jobs. Gas will handle them—do it automatically and inexpensively.

Now GAS does these jobs in our house, and Alice and I are having a second honeymoon. We've got the leisure to do the things we've always wanted to! Weren't we foolish not to have done this years ago!

* * *
 It costs nothing to learn how Gas can do the 4 Big Jobs in your home. Ask your Gas Company or Dealer today!

Look for this Seal of Approval of the Testing Laboratories of the American Gas Association when you buy gas equipment. Appliances bearing this seal comply with national requirements for safety, durability and efficiency.

LET
GAS
 DO THE 4 BIG JOBS
 COOKING
 WATER HEATING
 REFRIGERATION
 HOUSE HEATING

1. GAS FOR COOKING

THE COOK IS A LADY OF LEISURE when she owns an automatic Gas Range. Cooking is faster—cleaner. Broilers are smokeless. Simmer burners eliminate steam. Oven insulation keeps kitchen cool!

2. GAS FOR REFRIGERATION

HOME-MADE ICE CREAM—MM! Just one of the joys of an automatic Gas Refrigerator. You'll appreciate the ample storage space—the releases for ice trays and cubes. No moving parts to wear. Gas Refrigerators are silent, have long life. Upkeep is gratifyingly low.

3. GAS FOR HOUSE HEATING

AN EXTRA "FUN ROOM"—because a Gas Furnace is so trim, clean and quiet you can turn the basement area in which it stands into a playroom. Gas is the only completely automatic heat. There's nothing to tend—no fuel to order or store. No dust, ashes, smoke or soot. A Gas heating unit is low in cost. Installation is simple.

4. GAS FOR WATER HEATING

HUBBY'S HAPPY when there's plenty of hot water for his shower. A Gas Water Heater is the easiest way to assure it—and inexpensively!
