

SPACE AGE TECHNOLOGY

The same type of minds that doubted whether a pistol made partially of plastic could work would at one time probably thought the earth was flat.

Fortunately, for demanding sport shooters the world over, Gaston Glock thought differently. And his Glock Pistol—the first safe action semi-automatic 9mm pistol made primarily from the toughest steel and space age polymers—has set a trend for a whole new generation of durable sidearms.

Ingeniously engineered with fewest parts, no screws and lowest weight, Glock pistols have set new standards of safety, performance, simplicity and cost effectiveness. Yet, it is reliably capable of using the most advanced ammunitions that have made it the choice of U.S. allies and law enforcement agencies in the free world.

ATTENTION: All responsible firearms owners practice basic firearms safety.

Rule #11—The safe and rational use of a firearm relies on common sense and proper training of the user. Follow safety rules and **think** before using a firearm.

Rule #12—Thoroughly read and understand the users manual that is supplied with your firearm. Never use any firearm unless you completely understand its operation and safety features.

THE COVER: A winter scene seems appropriate for the Swedish Carl Gustaf Model 2000 rifle topped with a 3-9X Swarovski scope held by Conetrol's sleek rings. For more on the rifle, see page 66. And for Finn Aagaard's story on George Miller and his Conetrol mounts, turn to page 42. Cover design by Harry L. Jaecks; photography by John R. Lamson.

CAUTION: All technical data in this publication, especially for handloading, reflects the limited experience of individuals using specific tools, products, equipment and components under specific conditions and circumstances not necessarily reported in the article and over which the National Rifle Association (NRA) has no control. The data have not otherwise been tested or verified by the NRA. The NRA, its agents, officers and employees accept no responsibility for the results obtained by persons using such data and disclaim all liability for any consequential injuries or damages.
