THE NRA

The National Rifle Association of America is a nonprofit organization supported by the membership fees of public-spirited citizens. Its purposes are to educate and train citizens of good repute in the safe and efficient handling of firearms; to foster a knowledge of small arms and the ability to use them among members of law enforcement agencies and the armed services, and all other citizens who would be subject to service in the event of war; to promote social welfare and public safety, law and order, and the national defense. Membership in NRA is available to any reputable citizen of the United States.

Being Called a **SQUARE SHOOTER**
Is Quite a Distinction... for a Gun!

BROWNING *The Aristocrat of Automatic Shotguns*

The requisites of a good gun can be told in simple terms. It must perform effectively, dependably. It must be durable and should have the symmetry and design essential to ease of handling and precision shooting.

Ever see combat-ready soldiers on parade? Doesn't the cut of their uniforms and the sureness of their bearing accentuate the rugged strength and capabilities you know they possess?

You will have that same feeling when you see the parade of Browning Automatics in your dealer's showcase. Their brilliant finish and clean lines are not deceptive. Highly polished surfaces wear better and give outward evidence of the high degree of craftsmanship throughout. There is ample steel of finest quality where it counts, and every part is meticulously hand-fitted to give infallible performance. Observe the absence of looseness or rattle which contributes greatly to their lifetime durability.

When you shoot the Browning, you will sense its solidity, its smooth, sure function, fine balance and fast handling characteristics. It gives you 5 fast shots, soft recoil, unequalled speed loading, and the exclusive magazine cut-off.

As a sighting instrument, few can compare. The square end of the receiver is the key. Perhaps you have noticed that the rear sight on any rifle is at a sharp angle to the barrel so there can be only one sighting plane to proper alignment. The rear face of the Browning receiver was designed to provide this same optical advantage. It greatly facilitates quick, accurate shooting.

Yes, the Automatic-5 is an *honest* gun, strictly dedicated to the requisites of good shooting. And even though it delivers nice circular patterns, we are sure every Browning Automatic owner will accord his gun the distinction of being a **SQUARE SHOOTER**.

All models are Hand-Engraved. All gauges: 12, 16, 20, & 3" Magnum 12 AND NOW... the New Deer Slug & Buckshot Model
