CATALOG

Write for catalog giving complete facts and data on Browning guns PLUS special chapters containing practical shooting information. For shotgunning: chapters on stance, swing and lead; gauge, gun weight, barrel length, choke, and shot shell recommendations for various game. For rifle shooting: chapters on how to shoot a rifle; sighting in; bullet trajectory; where to aim for clean kills, recommended calibers and bullet weights.

There is
No Substitute
for the human mind
and skilled hands

By mass production methods it is possible to save man-hours and material costs in manufacturing a gun. And by these methods guns are made that function reasonably well — but *not* with the precision, dependability and lifelong durability on which Browning's reputation has been built. No mass produced guns, we feel, are good enough nor reliable enough to bear the Browning name.

The most modern techniques and machines, of course, are used in producing Browning guns, but in the more critical areas *there is just NO MECHANICAL SUBSTITUTE for the mind and hands of skilled craftsmen.*

So... you may be sure, when you buy a Browning, you own a flawless mechanism that has received the individual attention of many custom gunsmiths. You will *see* the difference in its hand-polished, hand-checked and hand-engraved surfaces. You will *feel* the difference of smooth, sure function when carefully *machined* parts are patiently hand-fitted to closest tolerance.

And, after your Browning has served you with unequalled dependability and effectiveness for a whole life of shooting pleasure, we believe you will agree with us... it was well worth the painstaking manufacturing effort.

Our ruling principle:
*Not how cheap or how many,
but, "how good can guns be made."*

—in Canada: Browning of Canada, Dept. 317, P.O. Box 991, Montreal 9, P.Q.

THE NRA

The National Rifle Association of America is a nonprofit organization supported by the membership fees of public-spirited citizens. Its purposes are to educate and train citizens of good repute in the safe and efficient handling of firearms; to foster a knowledge of small arms and the ability to use them among members of law enforcement agencies and the armed services, and all other citizens who would be subject to service in the event of war; to promote social welfare and public safety, law and order, and the national defense. Membership in NRA is available to any reputable citizen of the United States.
